After 6+ years of working mostly as a supervisor in the field of social work, I spent a year teaching myself HTML, CSS and basic JavaScript after which I enrolled in and graduated from the Flatiron School 800+ hour program as a Full Stack Web Developer. I am excited to bring my coding skills along with my strong skills in creativity, problem solving and teamwork to further enhance a company's growth and productivity.

TECHNICAL PROJECTS

Travel Log - https://github.com/rslim87/travel-log-client
React/Redux app that records your travel wishlist
+ Utilized React and React-Router 4 to provide dynamic client-side app
+ Implemented Redux to supply store data to connected React components
+ Created server-side using Ruby on Rails and used it to store and pass data to client-side

Booklist - https://github.com/rslim87/booklist
Sinatra app to keep track of the books you own and read
+ Used OmniAuth for OAuth authentication with Gmail
+ Implemented MVC paradigm to structure and organize the app
+ Used ActiveRecord and SQL to build a database for books, topics, and users

Freelance Job Tracker - https://github.com/rslim87/freelance-job-tracker
Rails app to keep track of freelance jobs
+ Used REST to structure and organize URLs
+ Used OmniAuth for OAuth authentication with Google
+ Created custom user authentication and authorization

TECHNICAL SKILLS

Ruby, Rails, SQL, JavaScript, React, HTML/CSS, Sinatra, Redux, jQuery
